referring to Project **CHALICE**

26 May 1958

MEMORANDUM FOR: Cover Officer, DPS/DCI

SUBJECT : Dissemination of NACA Classified Reports

**REFERENCE : Memo for Cover Officer from Deputy Director,
same subject, dated 21 May 1958 (CHAL-0144)**

25X1A I have noted the reference and concur in the immediate steps proposed by [REDACTED]. You should be aware, however, that I would greatly prefer the course of action that [REDACTED] recommends we follow in the event that ARDC finds no evidence that the aircraft industry is currently being hurt by the withholding of results of high altitude measurements. In other words, I would greatly prefer to review on a case-by-case basis requests emanating either from NACA or from ARDC that we authorize the release to a particular company with a specific need information on turbulence at high altitudes. I hope, therefore, you will exert such pressure as you can in support of this procedure. It may help you to indicate that an industry-wide release to selected engineering offices as proposed by NACA cannot be authorized without reopening the matter with me.

SIGNED |

RICHARD M. BISSELL, JR.
Special Assistant to the Director
for Planning and Development
